STAGE GLINTS.

"The Politician" will be used by John W. Ransome as a vehicle for stalling.

Paris is having a siege with a play having for its motive the elopement of a couple in an automobile.

Maurice Barrymore, now in the cast of "Reckless," has finished a play which Modjeska is reading.

Charles Hawtrey, the John Drew of England, is to tour this country next season under the Frohman management.

Louis Mann is quoted in an interview as being ambitious to play Shylock to Miss Clara Lipman's Portia, but he says now the venture will not be made this season.

Having heard reports that "Morris & Co." is considered insolvent, even in Paris, Charles Frohman snapped it up by telegraph, and New York is to have it as soon as possible.

Victory Bateman, the actress, is to marry Charles H. Mesinger, a member of the well known theatrical family. The lady, known in private life as Victory Green, is the daughter of Lizzie Green, at one time a well known actress.

Francis Wilson is making a revival of "Frankie," which for the balance of the season he intends to alternate with his "Yvonne de Borzome." Mr. Wilson has specially engaged Miss Pauline Hall, the original Frankie, for this revival.

Frank Daniels is supported this season by a company of 40 people. It is a cast of principals consisting, among others, of the last year's favorites, Helen Redmond, Kate Hart, Norman Kopp and Will Danforth. To this cast have been added George W. DeWolf, the young American tenor.

Had Previously Ruined His Digestion.

"Yes; he invited the trust president to dinner. He wanted to draw a moral lesson. He wanted to show the man of the octopus that while he was going himself on the best of everything there were thousands who were made poorer by his iniquitous schemes."

"How did it work?"

"It didn't work at all. All the president ate was a little rice and water, with a small slice of dry toast."—Cleveland Plain Dealer.

"After doctors failed to cure me of pneumonia I used One Minute Cough Cure and three bottles of it cured me. It is also the best remedy on earth for whooping cough. It cured my grandchildren of the worst cases." It is Jno. Berry, Logansport, Pa. It is the only harmless remedy that gives immediate results. Cures coughs, colds, croup and throat and lung troubles. It prevents consumption. Children always like it. Mothers endorse it. Hargis' Pharmacy, John Sheppard, S. Kahn.

Monster Oysters.

A fish dealer is thus quoted in the Philadelphia Record: "I had my first taste of a Yezo oyster yesterday. It was 13 inches long, and three of us sat down to it. The carver asked me what part I preferred, as though it had been a head steak. We left when we were through enough to make a hash, I guess. Some western man is importing these oysters to be sold on the Pacific coast, where they call an oyster as big as your thumb a Saddle Rock. They have such small ones there. The Yezos are from Japan, and it is hoped that they'll increase the size of the dwarf Pacific ones. A Yezo has a good taste, an excellent taste, but—excuse me! This oyster is as thick through as a piece of beef. Do you know that? When you cut into it with your knife, a plump or so of juice runs out. It is so big that you can see its veins and arteries, and if you are eating it raw you may see it pulsate, pulsate with puls, when you put some fork into it. Some say they have heard it moan. I don't think it will ever be as popular in Philadelphia."

WILL INVESTIGATE MACRUM'S CHARGES

Ex-Consul at Pretoria Claims Secret Alliance.

RESOLUTION OF INQUIRY

Must Inform the House of Representatives About Truthfulness of His Recent Charge of Anglo-American Affiliation.

WASHINGTON, Feb. 15.—Representative Wheeler of Kentucky today introduced in the house the following resolution:

"Whereas, Charles E. Macrum, late consul of the government of the United States at Pretoria in the Transvaal republic, over his own signature, charges 'when this (his) mail was finally forwarded to me after Colonel Stowe, the American consul general at Cape Town, had secured its release, I had the humiliation, as the representative of the American government, of sitting in my office at Pretoria and looking upon envelopes bearing the seal of the American republic broken and officially sealed convincing me that the contents had been read by the censor at Durban; and 'Whereas, he further states in the same article, 'when I accepted my post as consul I knew nothing of any secret alliance between America and Great Britain; therefore be it

"Resolved by the house, That the secretary of state is directed to inform the house of representatives of the statements of said Charles A. Macrum as consul of the American government to the state department that his official mail had been opened and read by the British censor at Durban, and if so what steps, if any, had been taken to obtain an explanation and apology from the British government."

Second.—He is further directed to inform the house of representatives what truth there is in the charge that a secret alliance exists between the United States and the empire of Great Britain."

The speaker referred two resolutions to the foreign affairs committee.

A NEW LINE TO FLORIDA.

South Georgia Railway Will Be Extended to Tampa.

ATLANTA, Feb. 15.—The directors of the South Georgia Railway company were yesterday granted an amendment to their charter by Secretary of State Phil Cook, authorizing an extension of the line from Tifton, its southern terminus, through Brooke county to the Florida line.

It is the announced intention of the South Georgia Railway company to build a line from Tifton, Ga., down the Florida peninsula to Tampa, competing at that point with the Plant system for the extensive trade of the north.

The South Georgia Railway company extends at present from Tifton, in Brooke county, to a point less than 50 miles in the northern part of that county.

The application of the company to build through to Florida has already been made to the authorities of that state and the directors announce their intention of carrying forward the work of construction without delay.

Unbounded Wealth.

The London capitalist was seated at his desk with a number of mechanical drawings and sheets of paper covered with figures before him.

"Planning another railway?" asked the visitor.

"No. Railways seem rather small to me. I've been reading about the movements of the army in South Africa. What I'd like to have more than anything else is a ferryboat line across the Tugela river."—Washington Star.

A Mother's Duty

is to see to it that her children begin early in life to shampoo their heads regularly once a week. In each instance, after the hair is thoroughly dry, some mild, health-giving tonic should be applied to the scalp to aid nature in creating the best possible growth of uniformly colored, lustrous, healthy hair—the most important feature in the make-up of beautiful women and handsome men. For more than fifteen years, the

has stood at the apex of all shampoo washes, while the "HAIR GROWER" has been equally successful in its efforts to return the injured scalp and almost lifeless hair to their original healthfulness.

The Future Population of Siberia.

This is a question upon which much has been said and written, some writers taking the stand that Siberia is to have a population of 60,000,000 or 80,000,000 within the next 100 years, while others hold this view is a gross exaggeration.

A writer of the latter belief, Arminius Vamborg, using The Pall Mall Magazine as a medium, has this to say on the subject: "With regard to the future colonization of this outlying portion of the empire of the czar, there is no doubt that an unmistakable gain will be derived for the growth of the population in Siberia, where an area of 13,400,000 square miles is inhabited by only 7,000,000 souls and where the extraordinary wealth in minerals, woods and arable land still awaits exploitation, will certainly proceed with greater strides than heretofore."

"Without giving implicit faith to Russian official statistics data, it may fairly be assumed that owing to the particular care the government has always taken to further colonization, the eminently agricultural Russian will probably avail himself of the offered facilities and that the population in the hitherto empty lands will considerably increase. It may be objected that Russia, the most thinly populated country in Europe, will hardly find a surplus to provide for the newly opened territory; but it must be borne in mind that the Russian peasant is noted for his migratory propensities."

"I had dyspepsia for years. No medicine was so effective as Kodol Dyspepsia Cure. It gave immediate relief. Two bottles produced marvelous results," writes L. H. Warren, Albany, Wis. It digests what you eat and cannot fail to cure. Hargis' Pharmacy, John Sheppard, S. Kahn.

At Jacoby's.

Four different men were trying to talk to Jacoby, all at once, the other day when a News man dropped in to get an advertisement he had been promising. "It's no use, my friend," he exclaimed. "You can see for yourself how things are. Look around, and if you see anything that will do for me to write it up, I simply can't do it." THE NEWS man looked around and "found something"—here is part of it: the rest was packed away in the big warehouse next door, or stacked up in shelves and piles, up to the ceiling:
